Note: If two years of the same foreign language is not taken in high school, four units at college level will be required for graduation.

Note: Students in the engineering 3/2 sequence are exempt from general education requirements in literature (3) and history (3) World Civilizations. The student is also exempt from the last semester residency requirement.

*Recommended

A total of 130 units are required for your B.S. degree from Biola University.

Your fourth year will include a minimum of 30-32 units of upper division engineering-related courses from U.S.C. or other accredited engineering school.

NOTE: This curriculum chart is designed with your major department and is one way that the classes will work out properly in sequence for your major. However, there are alternative flexible ways to rotate some of the classes within the same year/level and sometimes between year levels. Please contact your major department advisor to discuss flexible alternatives in scheduling the sequence of your classes.
